

# Fuji

## FA-70-4F Angle Grinder

- High Power - 1700W
- Extended Service Life
- Great with aggressive abrasives

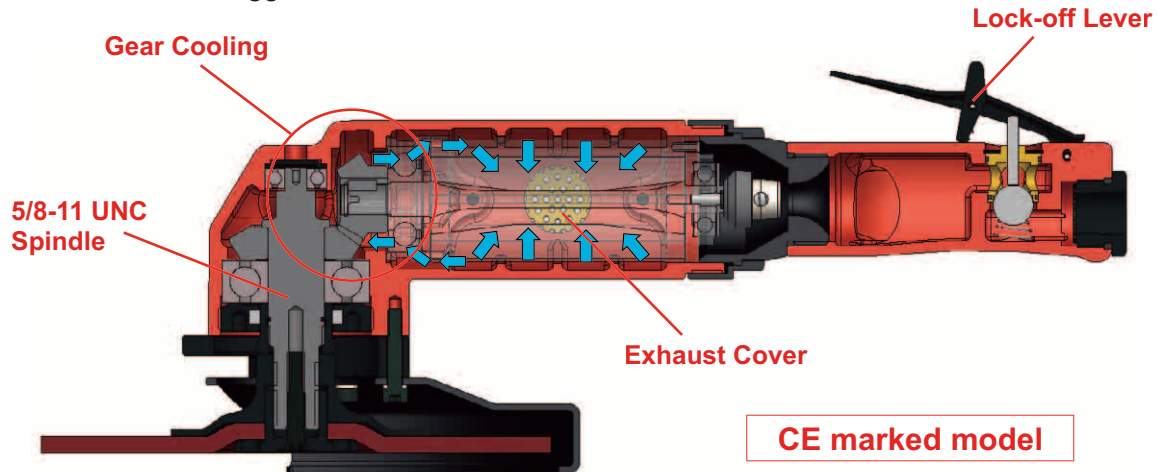

The FA-70-4F from Fuji is a powerful 7" Angle Grinder with 1700W output. Thanks to the extremely high power and durable design, the FA-70-4F is ideal for all heavy duty applications performed in shipyards, mining & construction, foundries and general metalworking.

# FA-70-4F ANGLE GRINDER

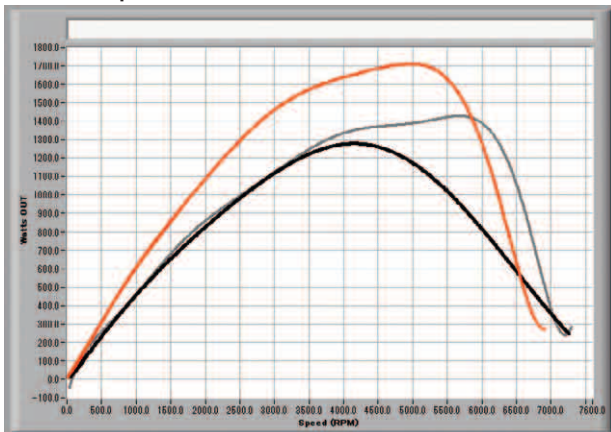

## FEATURES & BENEFITS

- Extremely high power thanks to the newly designed motor and optimization of air exhaust
- Cooling of gears by air flow: Extended service life for the gears
- New lever design with improved durability and function
- Side handle is available both for right/left handed operator : Ergonomic and versatile design
- Suitable for use with aggressive abrasives: Maximum removal rate

## POWER COMPARISON VERSUS COMPETITORS' TOOLS

Actual Output

- FA-70-4F N EC
- Competitor A
- Competitor B

Condition of comparison test

Air pressure: 0.63 MPa / Hose size:  $\varnothing$ 12.7mm (1/2inch) x 6m

Nipples: Nitto Koki 400PM + FUJI IB-304000

Measuring instrument: MAGTROL HD-800-6N
